Cellnet will distribute the gaming products through its Cellnet, Turn Left Distribution (gaming) and Performance Distribution (online) divisions with products expected to be available within this quarter.

Designed for Xbox, the new line from OtterBox offers a range of premium accessories that complement controllers, smartphone gaming as well as gaming-specific smartphone accessories. ABOUT CELLNET (ASX: CLT)

Established in 1992, Cellnet listed on the Australian Stock Exchange (ASX) in 1999 and is a leading distributor of lifestyle technology products, employing more than 70 people across Australia and New Zealand.

Cellnet represents global brands and sources products in high velocity categories including mobile, AV and IT accessories, audio, and gaming software and accessories into retail, business, and online channels.

Cellnet has extensive reach in Australasia, combining distribution of market leading brands with its own '3sixT' brand together with innovative category management services.

In 2018 Cellnet diversified its product offering into gaming with the acquisition of Turn Left Distribution and in 2019 acquired Powerguard to enter the surge protection power category. In April 2020 Cellnet acquired Performance Distribution, a strategic purchase for infrastructure, knowledge, and experience to accelerate its online business across Australia and New Zealand.
